Engagement Strategy Template

This template assists you to develop a thorough engagement strategy.

It is important to remember that your engagement strategy should be a living document and should be amended as your engagement process progresses.

Once completed please send your draft engagement strategy to the Engagement team at the Office for Māori Crown Relations – Te Arawhiti. We will review the draft and provide advice on your engagement approach. Your draft should be emailed to crownmaoriengagement@tearawhiti.govt.nz.

This template also provides the basis for reviewing your engagement process once it is completed.

Engagement Strategy

Co-ordination across Government

Does our kaupapa overlap with any existing engagement processes?

You should consult with colleagues in your sector about whether they have any engagement processes that will overlap with yours.

Is the government currently engaging with any of the identified groups?

Has the government recently engaged with identified groups on similar or other issues?

Given the above answers, what opportunities are there to co-ordinate with existing engagement processes to improve the quality of the Crown's engagements and the experience of groups?

Engaging with the Crown can place financial and other burdens on groups. Agencies can reduce this burden where possible, and improve the quality of engagements, by:

- *Combining engagement hui with other agencies*
- *Taking learnings from other agencies who have previously engaged with a group.*

Implementation

Have we involved people from our organisation with the capability to communicate and listen effectively to our audiences?

Outline briefly the engagement activity(s) planned (e.g. hui, wānanga, consultation on material) for each identified group

Do we have sufficient tikanga Māori capability to participate in, or facilitate, relevant protocols?

What is our strategy to manage expectations through the engagement process?

Will our engagement activities (e.g. hui, wānanga) reach all stakeholders we need? Do we have other opportunities for contribution (e.g. electronic feedback)?

<p>What systems will we have in place to ensure the outcomes of engagement activities are captured accurately and fully?</p>	
<p>Timeframes</p>	
<p>What are the government-driven deadlines for finalising engagement?</p>	
<p><i>Attach a timeline outlining key dates from current to the finalisation of the engagement process, including time for feedback and evaluation.</i></p>	
<p>Are there any events in the Māori community that might impact on engagement timelines, or impact on the capacity of groups to contribute?</p>	
<p>Does the timeline allow sufficient time for Māori groups to engage with material, discuss, and contribute, so that engagement is meaningful?</p>	
<p>How flexible is our timeline? Can it respond to unforeseen circumstances?</p>	
<p>Communication strategy</p>	
<p><i>Attach a communication strategy outlining, for each group being engaged, the key messages you will deliver to that group. These messages should be tailored to the particular audience.</i></p>	
<p>Do our key messages acknowledge the value that each groups' Māori perspective and experience will bring to our kaupapa?</p>	
<p>What material are we intending to distribute to inform our engagement?</p>	
<p>Is this material in formats that are accessible to the audience?</p>	
<p>How will we manage any media interest in our engagement?</p>	
<p>Risk analysis</p>	

Outline below the risks identified that would impact on a successful engagement process, and the ways to mitigate these risks.
